I think this settlement hardly deserves this name.  
Where's the punishment for the wrong Microsoft has done?

If you let them get away that cheap, you ultimately prove that the government doesn't have any power over a company as large as that!

Besides from that: Microsoft itself hasn't paid a single dime in taxmoney last year, so quit treating them as if they were the great taxpayer that needs not to be harmed!

Best regards,  
David Keegan
